Career Profile

Cloud Native Application Development graduate from Deakin University with a strong foundation in full-stack engineering, DevOps pipelines, and UI/UX prototyping. Proven capability in guiding cross-functional technical teams, constructing scalable database architectures, and managing high-pressure operational environments. Combines deep technical fluency in containerized environments with an agile, client-focused mindset to deliver production-ready digital solutions.

Education

July 2024 – July 2026	Bachelor of Information Technology Deakin University, Burwood - Expected completion date: June 2026 - Major: Cloud Native Application Development
June 2023 – June 2024	Diploma of Information Technology Deakin College, Burwood Achieved WAM of 87

Technical Skills

Cloud & DevOps	Kubernetes, Docker, CI/CD pipelines, Cloud-Native Architecture, Google Cloud Platform (GCP)
Web & Front-End	React, Next.js, JavaScript, TypeScript, Tailwind CSS, HTML5, CSS3
Back-End & API:	C#/.NET 6, Node.js, Express, SQL, Python, RESTful APIs, Swagger/OpenAPI, Git/GitHub
Design & CMS:	Figma (design systems, prototyping), WordPress, responsive & mobile-first design
Methodologies & Soft Skills	Agile/Scrum, Sprint Planning, Stakeholder Management, Team Leadership, Incident Triage

Project and Technical Experience

Oct 2025 – Feb 2026	Project Lead – Nutri Help Project Gopher Industries, Burwood Led end-to-end delivery of a digital health platform, coordinating sprint planning, milestone tracking, and stakeholder reporting across 3 functional teams (frontend, backend, design). Designed cross-functional workflows that translated complex healthcare stakeholder requirements into precise technical briefs, reducing development rework cycles by 25%. Produced structured progress reports and decision-support documentation, enabling informed governance across the full delivery pipeline.
----------------------------	--

Jul 2025 – Oct 2025	Back-End – Birdmark Project Gopher Industries, Burwood • Engineered digital submission features improving data capture accuracy and end-user usability for a production system. • Mapped out database schemas in collaboration with stakeholders, maintaining data integrity, reliable storage, and system consistency across environments. • Served as integration lead for version control workflows, maintaining code quality and consistency across 3+ concurrent development environments using Git.
Mar 2025 – May 2025	UI/UX Design Intern Magical Getaway Foundation • Created fully responsive desktop and mobile prototypes in Figma, addressing all identified usability issues and delivering a complete, production-ready design system. • Bridged the gap between technical performance analysis and user-facing design by translating Lighthouse audit findings into actionable UI improvements.

Professional Experience

May 2026 – Current	Shift Supervisor Club Demonstration Services, Ringwood • Promoted to Shift Supervisor within three years, overseeing shift operations, team coordination, and compliance standards across demonstration events. • Coordinate scheduling and brief a team of 20 members, ensuring smooth execution of demonstrations and consistent adherence to operational protocols. • Act as first point of escalation for on-the-ground issues, resolving customer and operational problems under pressure while keeping a calm, clear approach directly analogous to triaging urgent support tickets.
Jun 2023 – Current	Sales Advisor Club Demonstration Services, Ringwood • Increased featured product sales volume up by 80% to 100% through highly persuasive product demonstrations and clear, audience-tailored value propositions. • Troubleshoot and maintained workstation equipment, acting as a peer resource for new team members.

Leadership & Community

Mar 2026 – May 2026	Leadership 4Impact Cohort Member Study Melbourne, Melbourne • Directed team development of Edu Bridge, an EdTech platform improving education accessibility progressing from ideation through pivot to final presentation. • Developed collaboration, social impact thinking, and stakeholder communication skills in a structured leadership program.
Oct 2024 – Oct 2025	Student Ambassador Deakin College, Burwood • Conducted on-campus student events and academic sessions, ensuring smooth coordination and positive engagement experiences. • Increased student event attendance by over 50% through communication and structured outreach.
